### **Second Phase of Pavilion near Completion**

The second phase of the construction of SRI Resource Center is near completion. The unit will compose of the Cafeteria and Bakery Unit.

Many Volunteers from different parts of the world are involved in the project. Hellena & Laura the main Architects spearheaded the construction pro-

cess. First Phase of resource Center is composed of the library, Offices, ICT room.

The buildings are mainly constructed using bamboo and bricks as the main materials. A lot of preparation is made before the constructions begin. Bamboo poles have to be treated using special chemicals. The unit will be completed by the end of December.

### Tree planting project begins

SRI has embarked on tree planting project. Variety of tree seedlings are expected to be planted by the end of January 2018. A tree planting shade will be made in SRI compound. The project is focused on having over 600 seedlings after 4 months.

Through the seeds nursery we expect to demonstrate to schools and community members on better tree planting methods. Through the project we expect to form tree planting clubs in local school around.

### Upcoming events

- Steering board meeting will be held in the course of the month
- Fund raising will be done on 22nd December 2017
